

**Grand Rapids Tribune**  
BY DRUMB & SUTOR.  
Grand Rapids, Wis., Nov. 10, '09  
Entered at the Post Office at Grand Rapids, Wis., as second-class mail matter.

**Advertising Rates.**—For display matter at the rate of 10 cents an inch in the first week. The columns in the Tribune are 24 inches long, making a one column advertisement cost \$2.00 for one insertion. All local notices, cards of thanks, resolutions of respect, and all notices of entertainments where an admission fee is charged will be published at 5 cents per line.

A republican paper has come out and stated that the methods used by the government in its land drawings is rotten, just as if it were a new thing that they had just discovered. We have known all along that the system was rotten, and we were not the only ones that were aware of the fact. To a fellow sitting on the fence watching the game from a distance, it looked very much as if the railroad had a sure and in with the government officials that were enjoining the land drawings, so that as many as possible were compelled to go over the roof. When things are engineered in such a manner that one hundred people have to make the trip out to register and only two out of the hundred get a piece of land, it is about as good as if it might be handled in a different manner that would be better for the common person. The poor man stood no show of getting a parcel of land no matter how much he might want one, it all going to those who had time and money to make the trip out into that country.

Some persons have remarked, and truly, that it is only a step from the sublime to the ridiculous. They might have continued that the matter is a short step between the crafter and the reformer that it is often difficult to distinguish a mind very far. This is brought to mind very forcibly by the doing of one Gypsy Smith who has been holding what some people have religious meetings in Chicago for some time past. Recently this man led 15,000 people thru the red light district of Chicago, thereby getting considerable free advertising. Whether he saw what he expected to or whether it was a disappointment cannot be said, as he has not voiced his sentiments on the fact of the performance. These fellows who try to reform the world by doing something more spectacular than the wicked ones are doing are in the same class with the man who tries to further the cause of temperance by drinking all the whiskey himself so there will be none left for the rest of humanity to get drunk on.

In the making of a tariff law, one would naturally suppose that those least able to bear the burdens of taxation would not be discriminated against in favor of those best able to pay the tax involved in any tariff levy.

But what are the facts? The man who imports \$1,000 worth of diamonds pays a tax of but \$100—10 per cent. If he imported a thousand shirts worth a dollar each he would have to leave at the customs house and back onto his selling prices \$900, or 90 per cent.

If he decided that he would bring in \$1,000 worth of champagne, one of the items upon which there is a large increase, the tax levied by the tariff is \$500. If he brought in \$1,000 worth of blankets he would pay a tariff tax of \$1,645.42.

If he brought in \$1,000 worth of paintings and stoneware, all he would have to pay as customs duties would be \$200, but if it were sugar he would pay \$788.70 tax on \$1,000 worth.

If he brought in \$1,000 worth of jewelry he would have to pay \$800 tariff tax, but if he brought in \$1,000 worth of wool dress goods he would pay \$1,050.92 tariff.

If he imported a \$5,000 automobile the tariff tax would collect him of \$3,250. If it were \$5,000 worth of yarns the tariff tax would be \$6,900.

If the importation were \$5,000 worth of fur the tariff tax would be \$1,450 but if it were \$5,000 worth of clothing that tax would be \$4,330.

If some New York millionaire brings in a \$100,000 ocean-going yacht the tariff would be \$35,000, but if the importation were stockings the tariff collected would be \$87,950.—C. Q. D. in Bryan's Commonwealth.

**PITTSVILLE.**—(From the Record.) While Herman Brandt was in the city Sunday he made the statement that the stockholders of the Vednam creamery would re-open that establishment in the spring. A son of Albert Gachung is learning the creamery business now and will be installed as buttermaker in the spring. Mr. Brandt also stated that Mr. Haus Hanson, who recently left and who runs the Vednam creamery for some four years, had started suit against the stockholders for back wages claimed by him to be due him.

Henry Peters and G. H. Schlegel came up from Alma Center Monday to look after the grist mill here which has been purchased by Mr. Peters. The new owner has had chances to sell the property but was unable to try it himself and he has prepared for the same by engaging Mr. Taylor of Black River Falls, to do grinding and milling. Mr. Taylor will be here today and feed grinding commenced Tuesday.

Win. Stroppe, living north of the city, will put feed grinding machinery into the Patrick building next door to the Record office, and be prepared to grind feed certain days of the week. He has the power in the shape of a good gasoline engine and has placed an order for work as soon as the grinding machinery arrives.

Rev. Pantz of Turtle Lake, will soon be installed as pastor of Arpin and Vesper Lutheran churches. Revs. Gruber of this city, Maack of Grand Rapids and Schmidt, of Spencer, will act as ordinators.

**SIGEL.**  
On Tuesday morning at 11 o'clock at the German Lutheran church, occurred the marriage of Miss Lizzie Schultze to Edward Brehm, Rev. Gosselman officiating. Immediately after the wedding ceremony the bride and groom went to the home of the bride's parents, Mr. and Mrs. Fred Schultze, where a beautiful wedding dinner was served to a large number of relatives and invited guests, after which the afternoon and evening were spent in dancing. The newly married couple will make their home in Grand Rapids where Mr. Brehm will be employed. Their many friends in Sigel extend congratulations.

On Wednesday morning at the Catholic church here John Bronka and Miss Julia Choppa, well known young people of Sigel, were united in marriage. Max and Tony Bronka acted as groomsmen and Misses Selma Choppa and Lucy Brostowitz as bridesmaids. After the ceremony wedding festivities were participated in by a large number of relatives and friends at the home of the bride's mother, Mrs. Choppa. The best wishes of all their friends are extended to them for a long and happy life.

Miss Josephine Kozma and Jacob Kleppin were married at the Catholic church in Grand Rapids on Monday. A big wedding followed the ceremony at the home of the bride's parents, which was attended by a large crowd. They will make their home in the town of Souda where the groom has charge of his father's fine farm. Their many friends all wish them a happy journey thru life.

Mr. and Mrs. John Kuhn have issued invitations to the wedding of their daughter, Katherine, to Jacob Grain, which will take place on Wednesday morning, November 17th, at St. Mary's Catholic church at 8:30 o'clock.

Mr. Wissick has purchased the Joe Monahan home in Grand Rapids. We understand that Mr. and Mrs. Monahan will locate on a farm near Arvost.

Kronholm Bros. are digging a well on the Peter Schouten farm.

Mr. Holberg has sold his farm and moved to Grand Rapids to make his home with his son Peter. Mr. Oliver Vesper made the deal.

Mr. and Mrs. George Johnson have sold their farm and are now staying at the home of Mrs. Johnson's parents, Mr. and Mrs. Boshuor.

George Forslund and Axel Larson have gone up north to work in the woods.

Misses Mary and Jennie Larson spent the latter part of last week at their home here.

Services were held here last Sunday in the Lutheran church.

Mr. and Mrs. Combs spent Thursday at Vesper.

Edwin Berg spent Friday at Port Edwards.

The members of the Bathany church will give a dinner at the home of Mrs. E. M. Kronholm, Nov. 25th. A cordial invitation is extended to all.

Miss Eva Paterson returned home last week after having spent the past two months at Wausau.

Mrs. L. Perch, who has been very sick, is much improved at this writing.

Miss Emma Lundberg spent Friday, Saturday and Sunday with her parents here.

Mrs. O. Holstrom spent Thursday and Friday at the Odgaard home at Grand Rapids.

If you desire a clear complexion take Foley's Kidney Remedy and it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in order to feel well.

**NEKOUSA.**—(From the Times.) Henry Thomas was arraigned in Justice Helke's court yesterday on an assault and battery charge and fined. Last Saturday evening some boys were cutting up some Thomas' shop and he caught John Ulrich whom he supposed had been in the crowd and proceeded to chastise him. The Ulrich boy, however, was innocent of any wrong doing and complaint was entered against Mr. Thomas with the result that he was assessed a fine of five dollars and costs amounting to about nine dollars.

John M. Gage of Babcock was in town on business Monday. Mr. Gage had the misfortune of seriously injuring his left eye while out for a drive in the country near Babcock last Thursday, an oak grub wheel flying up and striking him on the side of the head and also hurting the eye-ball.

M. J. Power was at Grand Rapids on business last Saturday. Mr. Power has just sold a four foot wood splitter to the Monasia Paper Co. The machines are being built by the Grand Rapids Foundry Co. and have proved a great success.

H. S. Lapham and H. O. Cleveland returned last Saturday morning from a trip to South Dakota. They registered at the land drawing at Aberdeen.

The home of Mr. and Mrs. Chas. Rozelle was quarantined last Monday on account of scarlet fever, their son, Albert, and little daughter being ill with that disease.

Mr. and Mrs. Robert Morse of Grand Rapids were guests of Mr. and Mrs. C. O. Burt last Sunday afternoon.

Will Feunling left yesterday for Stroman, Colorado, to settle on his claim about five miles from that place. His brother, Laura and May sisters, Misses Addie, Laura and May have also filed on a 300 acre tract of "dry" farming land in that region. The family will move out there next spring.

C. H. Penning has just moved onto his brother, Will's farm in Saratoga. He was formerly located on a farm near Hancock.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by all dealers.

**BIRON.**  
George Bates, who is employed at the mill, attended the dance at Rudolph Thursday night.

Lloyd Brooks, car principal, spent Saturday at Stevens Point.

Mrs. Curtis Crotteau entertained a few of her friends Thursday night. A very good time is reported.

A twelve pound baby boy arrived at the James Klanna home one day last week.

Mr. and Mrs. Jeff DeMars and family and George Bates Sunday at Rudolph with relatives.

Mr. and Mrs. Francis Biron of Stevens Point were the guests of Mr. and Mrs. Steve Snyder last Sunday.

Joe Conway spent Saturday and Sunday at Stevens Point with his wife and children.

Noel Crotteau of Rudolph was in this burg a couple of days last week.

Mr. and Mrs. Alex Haylock attended the Bronk-Choppa wedding at Sigel one day last week.

Mr. and Mrs. Edgar Kellogg are the proud parents of a big baby girl born Monday.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities that if neglected might result in Bright's disease or diabetes. John E. Daly and Johnson & Hill Co.

# Dress Up to Date.

## ON GIRLISH LINES

TWO SIMPLE AND PRETTY JUVENILE COSTUMES.

Designed for Young Lady Who Has Not Yet Made Her Formal Entry into Society—Some New Effects Shown.

The illustration on the left shows a very pretty, becoming dress for a girl of 15 to 18 years; it is a style that makes up well for morning wear, in beige, alpaca or velvet; the skirt has two tucks about the hem, all being carried down each side front, and at top of tucks.

The bodice, which features at the

back, has a deep yoke of hooked silk muslin; it is only tucked into the bodice so that it can be easily removed for washing, and an easily replaced.

Two tucks are made each side, and

bracket with buttons and simulated buttonholes forms the trimmings.

The sleeves are gathered into deep

nothing better than china

Most Effective Decoration That Can Be Devised for Walls of Dining Room.

The prettiest dining room walls are those decorated with china, instead of pictures, for this treatment gives distinction from any other room. Pieces selected for the walls must, of necessity, be striking, either in color or shape, preferably both. They may be large or small, for, although it may seem, there is no difficulty in attaching even a heavy piece securely.

Plate racks around the walls are familiar and yet they grow tiresome. But unless the reach of wooden shelf is made too long they can be most attractive.

An arrangement that is useful if placed between two windows consists of a shelf 15 inches at its widest, in the middle, narrowing down to six inches, and then one at either corner. The shelf thus made gives plenty of room for holding a large salad bowl. Ten inches below is another shelf, having a serpentine front and of the same length as the upper. A brass rail two inches wide placed around the edge holds the dishes in place.

For hanging plates there are light-weight brass racks which do not show brass hooks held cups by the handles. If plates or platters are placed upright on shelves it is most important that they should be secured from slipping, either by narrow strips of wood tacked about two inches from the back, the plates being put behind these, or by grooves in the shelf.

China selected for decorative purposes should have little white about it and the pattern must be large in size, as well as bold in design. Some of the so-called "cottage" figures are particularly effective, while old blue and white is lovely. Real old Canton, and even the reproductions, are especially suited to walls, so intense and satisfactory to the blue.

Another not uncommon Chinese ware in which the china is covered with figures and landscapes, done in many colors, is among the best that can be selected for the purpose. French china, because of their delicacy, must, as a rule, be sparingly used, for they fail in effectiveness. Nevertheless a cup, bowl or plate of fine porcelain, if placed to advantage, rather low, where the eye may appreciate its beauty, will rank as an ornament.

China, like pictures, must be

chosen and placed with discretion, in order that no inharmonious effects may be produced. It is not advisable to mix different styles any more than it is to mingle different subjects in pictures, and for the same reason, they clash. China ware and French together are bad taste, whereas China alone or deft alone or grouped in different parts of the room is successful.

To Hold a Bed Valance.

Cut stout unbleached sheeting just the size of the bed. Sew the valance around it, then spread it over the springs and under the mattress; the weight of the mattress keeps it firmly in place.

Two-Toned Stockings.

The imported stockings with one tone over another are very much in fashion. They look like changeable silk and are slightly ribbed.

MEANS WARMTH IN WINTER

Dotted Challis Waist Is Just the Garment Most Needed by the Schoolgirl.

The dotted challis waist is very new, very light in weight and very warm. Indeed, it is well worth a so-called thought, and it invites the sensible woman or better still, the sensible mother. Daughters are not warmly clad these days, and it might be well to take some time for the consideration of the fairly warm winter waist, be it shirtwaist or blouse.

There is not the least objection to the non-washable blouse if it can be made of material that is not bulky, and worn on the right occasions. It involves more care than the durable white linen waist, and should be made with the idea of an occasional bath in warm, soapy water. Almost all challs will stand this treatment occasionally. This year there is a beautiful little model shown at an exclusive shop. It is made of this pretty, soft material, embroidered by hand over its entire surface; but there are evil

## STATE NEWS

Norman—William Baird escaped from a dynamite explosion that completely wrecked the shanty he was occupying, but his favorite clay pipe was broken and William is said to be a well-digging crew he went into the country and was asleep in a small cabin when a companion prepared several sticks of giant powder, left the building and locked the door on the outside. A spark from the stove light of the shanty, which had been left by its owner, set the powder on fire. The explosion was heard for miles around. The force of the explosion was such that the shanty was blown into the air and the debris was scattered for miles around. The explosion was heard for miles around. The force of the explosion was such that the shanty was blown into the air and the debris was scattered for miles around.

Materially required: Six yards 48 inches wide, about eight yards 36 inches wide, 14 yards bodice lining, one-half yard silk muslin 40 inches wide.

The other costume is for a girl of 14 to 16 years. Our model being for present wear, it is in the golden brown linen, the skirt is arranged in plaits each side front; they are attached two-thirds the length, and are ornamented with buttons; a fancy cotton gaiter in shades of brown forms the trimming.

The unfinished bodice has a small yoke of finely tucked net outlined with gaiter.

The sleeves are tucked in vein of three, the entire length; buttons trim the front, and a dark brown kid waistband is worn.

Hat of burnt straw trimmed with golden brown silk.

Materially required: Six yards 48 inches wide, 14 yards 36 inches wide, 14 yards bodice lining, one-half yard silk muslin 40 inches wide.

A Pleasant Expression.

Every woman has a claim to beauty if she will only cultivate a pleasant expression that will make the people that come in contact with her feel better instead of worse. Train your face to be life through rays instead of black spectacles, expect the best to happen instead of the worst, and don't worry needlessly. Here is the whole secret of how to win people's love and how to succeed in life.

You are accountable to yourself for every wrinkle and every line interrupting the smoothness of your forehead prematurely. Think of it: you wish to preserve your youthful looks.

The Long Fur Coat.

Semi-precious furs in long coats will be popular, with linings of plaid and striped silk. Violet and pink Ottoman will be in style as linings.

Nothing better than china

## ROAD FARM IMPLEMENT

After trying many kinds, I have found that the most profitable onion to plant in the fall is the yellow globe onion or multiplier. These increase entirely by division of the bulbs.

Most Destructive Disease Attacking Leaves and Stems of Tomatoes and Hard to Control

Leaf spot is the most destructive disease attacking the leaves and stems of tomatoes, and it is very hard to control. Small, grayish-brown angular spots, containing minute black fruiting bodies, appear upon the leaves and stems. The lower ones are first attacked and the disease spreads upward, often almost defoliating the plants. Many growers report that this disease is worse on high, dry, gravelly or sandy soils. It is carried over the winter in diseased stems and leaves.

Treatment: Spray with Bordeaux a week after transplanting and repeat at intervals of ten days or two weeks.

It is often advisable to stake and tie up the plants for greater convenience in spraying. Plucking off the lower leaves which touch the ground when the plants are set out is also recommended. The diseased tops should be raked up and burned.

Black rot is a fungus which attacks the stems, leaves and fruit of the tomato. It is by the destruction of the fruit, however, that it causes the most serious loss. Roundish black velvet spots appear on the blossom end of the tomatoes. These increase in size and sometimes involve the whole fruit. On the surface of the diseased spots

dark-colored, many-celled club-shaped spores are produced.

Treatment: Spray with Bordeaux, beginning when the flowers open, and repeat at intervals of ten days or two weeks. Remove and destroy diseased fruits. Burn the diseased tops.

Olivo brown, leafy areas called scab occur on the under side of the leaves and brown discolorations on the upper surface of the tomato. In several cases the leaves turn black, shrivel up and die. Twenty-colored, two-colored spores are produced on the clustered stalks of the fungus on the under surface.

Treatment: Spray with Bordeaux early and repeat at intervals of ten days or two weeks.

WHAT REAL FARMING MEANS

Truly Work of Science and Improvement Comes Through Course of Education, Says Hoard.

Agriculture in this country will take a great uplift in its general efficiency and financial profit, says Gov. Hoard of Wisconsin, in his Dairyman; the material resources of fertility, forests and fuel will be better conserved and life on the farm greatly elevated in its scope of enjoyment, when the American farmer comes to that period of mental development that will enable him to see that farming is as truly a work of science and large comprehension of forces as any industry. No improvement can come as long as the farmer believes that he does not need education and well developed brain to carry on his business. The only farmer in the land that is making good growth and progress is the man who accepts the statement squarely, that thought, knowledge and real mental power are necessary to his well being as a farmer.

STANDARD WEIGHT OF PRODUCE.

Kind. Pounds per Bu. Wheat 60 Corn on the ear 70 Corn shelled 56 Rye 48 Buckwheat 48 Barley 48 Oats 32 Peas 60 White beans 60 Sweet potatoes 55 Onions 57 Turnips 65 Clover seed 60 Flax 65 Millet 58 Timothy seed 45 Blue grass seed 44 Hemp seed 44 Cornmeal 48 Bran 20

What is a Potato?

It is claimed that the potato is not a root, nor a fruit, nor a seed. It is nothing more than an enlarged stem or tuber. It is the belief of some that it originated by a part of the potato vine or bush becoming buried under the earth—in all probability buried, and it enlarged when the starch gathered at the buried part. The theory continues, then, when this enlarged stem is planted there is a tendency for it to throw out underground stems that would enlarge, and finally there came to be such a variety of potato vines as would produce tubers under the ground.

Good for Spraying.

Arsenic of lead is good for spray at the rate of six pounds to the 100 gallons of water. It is a more deadly poison and stays on the tree as no other spray will. It can now be purchased for seven cents per pound, and one application is worth a dozen of paris green.

Great Difference in Rice.

Some varieties of rice ripen in two months after planting, while others require up to six months of cultivation.

## PROFITABLE ONION IN FALL

After trying many kinds, I have found that the most profitable onion to plant in the fall is the yellow globe onion or multiplier. These increase entirely by division of the bulbs.

## AS UNDERSTOOD IN BOSTON

The Traditional Episode of "Little Miss Muffet" Brought into Every-Day Cognizance.

A flummery specimen of juvenile femininity, Miss Muffet, had placed herself in a sitting posture upon an article of household furniture, ordinarily termed an ottoman or hassock.

Ministering to the gratification of her gustatory organs by luxuriating the regulated portion of her life, she had mingled with the water series of the same which remained after the regulated portion had been segregated and withdrawn.

Her evening to glance downward she observed that a specimen of the genus Aranea, class Arachnida, remarkable for its ability to produce filaments of extraordinary tenacity from its own interior, had taken a position upon the ottoman or hassock in immediate proximity.

Which totally unexpected incident aroused her apprehension to such an extent that she immediately, not to say precipitately, rose from her sitting posture, and departed from the locality, leaving the intruder in undisputed possession of the apartment.

MAJOR OR MINOR.

Discarded Auto Simply Acted as Decoy to Bring Other Under-standables.

Ann Palmer, vice-president of the American Automobile association, said in St. Augustine of the automobile industry:

"Cars are now made to last. The rich man no longer finds his 1907 car unsatisfactory, like his 1907 car, in 1909.

"At the beginning of the industry a car was anticipated in no three so antiquated that people laughed at it.

"They tell a story in Detroit about a dealer who had, in 1900, an antiquated 1895 car. He tried vainly to sell this car. He put lower and lower price tags on it—\$100, \$50, \$10, and finally he put on a tag to the effect that the car was to be given away.

"Even then there were no takers.

"So one evening, desperate, the dealer left the 1895 car in a vacant lot beside his shop, hoping that some one would steal it in the night. But when he came down to work the next morning, not only was the old car still there, but another one of similar pattern had been placed beside it."

Sour Milk as Preservative.

Most housewives do not know that sour milk is a preservative. Even oysters will keep in it for some time. A piece of beefsteak was found to be perfectly fresh after an immersion of four or five months. Prof. Elie Metchnikoff of the Pasteur Institute, Paris, explains that the sugar in the milk encourages the growth of certain germs which form lactic acid. This acid destroys the germs of putrefaction. For this reason, sour milk and buttermilk are often beneficial in all alimentary disorders which are accompanied by bacterial infection. Sweet milk will not serve because the sugar is promptly assimilated and the friendly germs are without sustenance. On the other hand, the enamel of the milk remains and in it the bacilli of decay multiply. It is they which cause the class of symptoms known as biliousness.

A Frank Estimate.

To many persons who are not actors the stage seems a delightful and fascinating place. In a book called "The Actress" Louise Closser Hale, herself an actress, tells some of her experiences with girls who envy her profession. One day one of them, found behind a counter in a shop, said, "I should have went on the stage."

"She evidently wanted to talk, and I wanted to be interested," says Miss Hale.

"But see how I live! I am," she said to her. "I have to work very hard as it is, and I had to work much harder to gain what little recognition I have had."

"Oh, yes," she responded, complacently gazing at herself in a mirror. "But you see, I have talent!"—Youth's Companion.

The Knot in Ships' Flags.

Besides signaling, there are other uses to which ship's flags may be put. Visiting to any of the big seaports frequently observe a vessel flying a flag with a knot tied in one corner of it. This sign, not generally understood by the uninitiated, is meant to attract the attention of a customs officer, who knows at once that the vessel displaying it wishes to ship or to consume a quantity of bonded goods, i. e., tobacco, liquors, etc., his presence being necessary to break the seal before such goods can be utilized.—The Sunday Magazine.

From Bad to Worse.

"Hello, Peckem!" said Miggles as they met on the street. "I hear you and your wife had words and she left you."

"Yes, that's right," rejoined Peckem. "That's bad," said the other. "I'm awfully sorry to hear it."

"Oh," the husband retorted, "that doesn't worry me; but I'm afraid she'll do something worse."

"Worse!" echoed Miggles. "What could she do that's worse?" "She could come back," answered Peckem, as he smiled a sickly smile.

Two of a Kind.

Mrs. Boggs—I hate to have a man always complaining about some little thing. Now, my husband is continually harping on the lace curtains.

Mrs. Woggs—Yes, and my husband has been kicking on our front door every morning at three o'clock for the last 20 years.—Puck.

Beaten by Nature.

Woggs—I had the laugh on my wife yesterday.

Boggs—How did it happen?

Woggs—We were out driving and she discovered an echo that beat her out of the last word.—Stray Stories.

Good Roads Help Farmer.

Good roads help in every way; they promote sociability by making friends and relatives accessible, and by means of them it is easier to reach the schools and churches and to generally do and enjoy the things which make life really worth living.

Value of Farm Lands.

It is not likely that good farm lands will ever be worth less than an acre in the United States than they are at the present time, says the Agriculturist. Our good farm lands have practically all been taken up and the competition for them is growing sharper every day. But the appreciation in farm land values in the future is going to come not in the west, but in the east.

Vacation days are over for the box cars.

## PARISH AS BIG AS NEW YORK

Rev. Leonard J. Christler in Wide Range Divine With Political Proclivities.

An unusual character is in St. Paul—one who is part high and part low and about 100 miles wide and contains twenty-two meeting places. His name is Leonard J. Christler, and he is known as a minister in a diocese that is strongly Republican.

Mr. Christler became a Twinkler because of his great enthusiasm for the state into which he moved only three years ago.

Two main loads of home-cooked are piled from St. Paul to Montana next Tuesday, and Mr. Christler's social life is very busy. He is helping make the state grow, get set, and help make the church grow stronger.

His parish has been generally east and west along the Great Northern, and he has at one time the Montana Central road toward the south. But there are several towns not on either line and to the east he makes his trips by stage or on horseback, distances of from forty to seventy miles.

MAJOR OR MINOR.

Discarded Auto Simply Acted as Decoy to Bring Other Under-standables.

Ann Palmer, vice-president of the American Automobile association, said in St. Augustine of the automobile industry:

"Cars are now made to last. The rich man no longer finds his 1907 car unsatisfactory, like his 1907 car, in 1909.

"At the beginning of the industry a car was anticipated in no three so antiquated that people laughed at it.

"They tell a story in Detroit about a dealer who had, in 1900, an antiquated 1895 car. He tried vainly to sell this car. He put lower and lower price tags on it—\$100, \$50, \$10, and finally he put on a tag to the effect that the car was to be given away.

"Even then there were no takers.

"So one evening, desperate, the dealer left the 1895 car in a vacant lot beside his shop, hoping that some one would steal it in the night. But when he came down to work the next morning, not only was the old car still there, but another one of similar pattern had been placed beside it."

Sour Milk as Preservative.

Most housewives do not know that sour milk is a preservative. Even oysters will keep in it for some time. A piece of beefsteak was found to be perfectly fresh after an immersion of four or five months. Prof. Elie Metchnikoff of the Pasteur Institute, Paris, explains that the sugar in the milk encourages the growth of certain germs which form lactic acid. This acid destroys the germs of putrefaction. For this reason, sour milk and buttermilk are often beneficial in all alimentary disorders which are accompanied by bacterial infection. Sweet milk will not serve because the sugar is promptly assimilated and the friendly germs are without sustenance. On the other hand, the enamel of the milk remains and in it the bacilli of decay multiply. It is they which cause the class of symptoms known as biliousness.

A Frank Estimate.

To many persons who are not actors the stage seems a delightful and fascinating place. In a book called "The Actress" Louise Closser Hale, herself an actress, tells some of her experiences with girls who envy her profession. One day one of them, found behind a counter in a shop, said, "I should have went on the stage."

"She evidently wanted to talk, and I wanted to be interested," says Miss Hale.

"But see how I live! I am," she said to her. "I have to work very hard as it is, and I had to work much harder to gain what little recognition I have had."

"Oh, yes," she responded, complacently gazing at herself in a mirror. "But you see, I have talent!"—Youth's Companion.

The Knot in Ships' Flags.

Besides signaling, there are other uses to which ship's flags may be put. Visiting to any of the big seaports frequently observe a vessel flying a flag with a knot tied in one corner of it. This sign, not generally understood by the uninitiated, is meant to attract the attention of a customs officer, who knows at once that the vessel displaying it wishes to ship or to consume a quantity of bonded goods, i. e., tobacco, liquors, etc., his presence being necessary to break the seal before such goods can be utilized.—The Sunday Magazine.

From Bad to Worse.

"Hello, Peckem!" said Miggles as they met on the street. "I hear you and your wife had words and she left you."

"Yes, that's right," rejoined Peckem. "That's bad," said the other. "I'm awfully sorry to hear it."

"Oh," the husband retorted, "that doesn't worry me; but I'm afraid she'll do something worse."

"Worse!" echoed Miggles. "What could she do that's worse?" "She could come back," answered Peckem, as he smiled a sickly smile.

Two of a Kind.

Mrs. Boggs—I hate to have a man always complaining about some little thing. Now, my husband is continually harping on the lace curtains.

Mrs. Woggs—Yes, and my husband has been kicking on our front door every morning at three o'clock for the last 20 years.—Puck.

Beaten by Nature.

Many More Like This in Grand Rapids.  
Scores of Grand Rapids people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is one: "What better proof of merit can be had than such endorsement?"

Louis Young, 753 1/2 Twelfth St. N., Grand Rapids, Wis., says: "Doan's Kidney Pills are the best remedy I ever used for kidney trouble. I was overworked, and disordered, and my rest was greatly disturbed by a kidney weakness. The kidney secretions were highly colored, and I urinated frequently. My back ached almost constantly and I had sharp, shooting pains in my legs. After using Doan's Kidney Pills, I felt seeing that they were recommended highly, I procured a box. After using a few, I procured more from their office. I can recommend them to anyone suffering from kidney complaint."

For sale by all druggists. Price 50c per box. Postpaid. Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
